Respected Sir,

This is to submit for your kind information that there are various standard norms for recognised Postgraduate teachers in various subjects at MUHS affiliated institutions.

But many times, it is observed that in spite of presence of recognised PG teacher in specific departments, there is unfair distribution of the PG students amongst available recognised PG Teachers at a particular time.

It is common practice to keep all PG students only under the Head of Department, even if the usual annual intake of the PG students are more than one.

Hence, mere a certificate of approved/ university recognised teacher may not serve the said objective of academic excellence with innovations and research culture. Also, it not gives fair opportunities to all PG guide to take appropriate participation in mentoring PG students.

So, we request you to provide appropriate guidelines through university on fair distribution of the PG students in respective departments giving appropriate opportunities to all such recognised PG teachers in the departments of various institutions affiliated with the MUHS.

Submitted for your kind consideration and further nedful.

Thanks.

Subject: To include following Agenda in BOS meeting scheduled on 21<sup>st</sup> Jan 2020

Respected Sir,

Greetings for the New Year.

I am in receipt of letter for BOS meetings scheduled on 21<sup>st</sup> Jan 2020.

Requesting you to include following agenda in BOS meeting.

S. No	Agenda	Board	Reason
1	Review of syllabus contents of Biochemistry for phase I MBBS	Preclinical	We have just concluded one year of new CBME curriculum & found a remarkable change in teaching learning in Biochemistry. As a matter of continuous improvement, I am recommending these suggestions. We can appoint a task force committee who can study this & give suggestions for changes, if any.
3	Guidelines on conduct of practical examination in Biochemistry	Preclinical	
4	Revision of DMLT syllabus	Preclinical & Para clinical	DMLT syllabus has not been changed since inception of MUHS. Lot of technological changes has occurred. The new syllabus should be in tune with the current & future requirements. Hence suggesting the same.
5	Revising teachers experience criterias for DMLT, FYOT, FYPT & BPMT practical & theory assessments	All boards	The present MUHS criterias for examinership both for MBBS & other courses is the same. It is very difficult to get senior examiners both for theory & practicals for these courses. The issue of decreasing required post PG experience to be an examiner for these courses can be discussed.

I hope you will respond positively for the same.

Regards,

Dr. Pramod Ingale

Sub: Inclusion of Anapana & Vipassana meditation in curriculum of under graduate students ( Ref MCI 2018 guidelines)

Respected Sir,

At the outset, we congratulate all committee members of MCI for taking enormous efforts & producing a path breaking policy to transform the medical education in India. Our team has perused the policy document almost word by word. As like many we are very pleased to see that the committee without any hesitation mentioned various realistic observations of the present status of medical education system in India. It has also made an effort in recommending the introduction of very innovative concepts to produce committed, sincere dedicated, confident doctors .

“Having empathy towards patients in **public hospitals** is a big issue,” said Dr Avinash Supe, Dean GS Seth Medical College Mumbai, Chairman of Reconciliation Board for the Medical Council of India (MCI). In 2015-16, Dr Supe was part of a committee that drafted the Attitude and Communication (AETCOM) module. This year, the MCI notified all medical colleges to introduce AETCOM as part of the MBBS curriculum from 2017-18.

The module has been introduced to improve **behavioral attitudes**, enforce **medical ethics and improve communication** skills among doctors.

At KEM, medical students attend classes on empathy (old news) According to the head of the humanities department, Dr Lopa Mehta, the humanities sessions began three years ago to introduce an element of **sympathy** among medical students.

कुसुमविष

कुलगुरु

मआपिदि, नाशिक

In an attempt to nurture **empathy** among future doctors, KEM Hospital and Seth GS Medical College have become one of the first in the state to initiate sessions under humanities courses in the MBBS curriculum where workshops, literature, music and art would be woven into studies.

The VRI (Vipassana Research Institute) Mumbai, would like to offer some suggestions in implementing point 5 concerning **Attitude, Ethics and Communication (AETCOM)** Competencies for the Indian Medical Graduate. The present education system is greatly influenced by academic performance, however these are only stepping stones and do not guarantee success in facing all challenges in the real life.

The real success would be if the education system makes the budding doctor competent to handle his anger, fear, anxiety, peer pressure, depression and similar features that make him weak and unable perform at his best. These are the factors that make one weak physically as well as mentally. Every individual has his own mental conditioning that can be addressed best by himself. Every individual also has capacity to overcome it within the self.

We at the Vipassana Research Institute (VRI), Mumbai, Maharashtra are engaged in teaching of **non-sectarian** Vipassana meditation technique which focuses on the deep interconnection between mind and body. This meditation results in improved self awareness. The process of purification that occurs is simply an elimination of negativities, complexes, knots, and habits that have clouded pure consciousness and blocked the flow of mankind's highest qualities like pure love (metta), compassion (karuna), sympathetic joy (mudita), and equanimity (upekkha). There is no mysticism in Vipassana. It is a science of the mind that goes beyond psychology by not only understanding, but also purifying, the mental process.

We seek an appointment with you to explain the benefits. If implemented, it will contribute greatly in achieving the lofty goal that the MCI has set. We would need an hour for an introduction to the technique. The students can be taught Anapana which is breath awareness and then they can sit a 10 day Vipassana course at individually suitable time at any of our 90 centres in India.

If convenient, one of our representatives would meet you in Nashik in this week. We would be very happy to make a detailed presentation if permitted

Thanking you in anticipation,

Dr Nikhil Mehta

## National Commission for Scheduled Tribes

File No. LT/1/2019/STGMH/ATMURD/RU-IV

Report on the visit of National Commission for Scheduled Tribes in connection with the death of Dr. Payal Tadavi, ST Post Graduate Student in B.Y.L.Nair Charitable Hospital, Topiwala National Medical College, Mumbai.

A team of National Commission for Scheduled Tribes led by Dr. Nand Kumar Sai, Hon'ble Chairperson and accompanied by Miss Anusuiya Uikey, Vice Chairperson, Shri H.K. Damor and Smt. Maya Chintamn Ivnate, Members, Shri R. K. Dubey, Assistant Director, Miss Deepika Khanna, Research Officer and Shri Sudhir Kumar Atram, PS to Member (MCI) visited Mumbai on. 08.06.2019 to review the action taken by the concerned authorities in the matter of death of Dr. Payal Tadavi, ST Post Graduate Student in B.Y.L.Nair Charitable Hospital, Topiwala National Medical College, Mumbai. The Commission held meetings with the family members of the deceased, her room mates, fellow doctors, paramedical staff of Obst. & Gynaecology Department of the Hospital. A separate meeting was also held with hospital management, police, BMC and senior officers of state health and Tribal Development Department in B.Y.L.Nair Charitable Hospital. List of participants of this meeting is placed as annexure.

Following information was given to the Commission by the above persons/officials:

### **A. Family members of Dr. Payal Tadvi.**

1. Mrs. Abeda Salim Tadavi, mother of Late Dr. Payal Tadavi informed the Commission that her daughter was being tortured by three senior doctors namely Dr. Ankita Khandelwal, Dr. Bhakti Mehre and Dr. Hema Ahuja for quite some time. She initially did not get a room in the hospital and had to stay in the room on sharing basis with her senior Dr. Bhakti Mehre which was there in the hospital for resident doctors. She slept on the floor as no bed was available. Dr. Bhakti Mehre used to clean her feet on her bedroll after coming from washroom. As she was supposed to get a room in two months, she tolerated it. These three seniors also harassed her at the work place. They did not allow her to operate the patients or to stitch the body parts after surgery. They always threatened her that she will not be allowed to

प्र. ५.

progress in the field. They used to shout at her in the ward in front of staff, patients and visitors. As the harassment continued, she started staying in the ward and took rest in the side room of the ward. She used to go to her room only for taking bath.

Mrs. Abeda Salim Tadavi further informed the Commission that she is a cancer patient and was operated just 08 days before her daughter was admitted in the PG Course in the hospital. She informed that for chemotherapy and to stay near her daughter in Mumbai, she came from Jalgaon for giving moral support to her daughter suffering from caste based harassment by seniors. She said that as a mother, she was ready to even hold the feet of senior doctors to change their attitude towards her daughter. However, her daughter did not come to meet her as she was under tremendous pressure due to humiliation and derogatory remarks passed by her seniors. She also informed that she went to meet Dr. Surbhi and Dr. Devinain the end of November, 2018 who were third year students and senior to her daughter to request them to talk to the three seniors who were harassing her and request them to allow her to work in the Hospital and learn her profession properly. After coming to know about this, the three accused became angry and the level of harassment also increased. They even did not allow her to take breakfast and meals and pressurized her for work. They made comment that they will make her "Doctor of donkey's". They used to make caste based remarks related to her rank in the Medical Entrance Examination and her social status.

After that she along with her son-in-law, Dr. Salman went to meet Dr. Sneha Shirodkar, Head of Obst. and Gynaecology Department in the Hospital in the month of December, 2018 and informed her about the discrimination and harassment. She was also informed that these seniors are not allowing her to learn anything in operation theatre about various procedures and surgeries. Other resident doctors have learnt these procedures but her daughter Dr. Payal Tadavi was compelled to do only paper work in the ward. It was also informed that these seniors used to throw files and tear the papers in front of patients and paramedical

7 7 U

staff to humiliate her. They requested the Head of Department to change her unit so that Dr. Payal Tadavi doesn't have to work with the accused Doctors. Head of the Department didn't change her unit but gave her alive posting for two months from 15/12/2018 to 15/02/2019 in the children ward. Thus, she was away from the accused but when they came to know about the complaint made to Head of the Department, they were irritated and said that after two months when Dr. Payal Tadavi will return back in the unit, they will take revenge. As a result, her weight reduced by 10-15 kg in two months. The cloths purchased by her online also could not fit her. They even didn't allow her daughter to sleep or take bath. Her daughter called her mother in the night of 10/05/2019 and she was crying due to the mental agony caused due to comments of the accused Doctors. She informed the Commission that she consoled her and said that she will come to Mumbai from Jalgaon on 12/05/2019. She reached there in the resident doctor's room at 5:00 P.M. and served her food.

Mrs. Abeda informed the Commission that she had come to the Hospital with written complaints to the Dean, Police Station and Minister of State for Health in which all these incidents of tortures and acts of atrocity were narrated and it was stated that these were being done as she belonged to Scheduled Tribe category. Mrs. Abeda informed that she stayed in Mumbai upto 13/05/2019 and her son-in-law Salman went to meet Head of the Unit Dr. Ching Ling Yi who was acting Head of department during the leave period of Dr. Sneha Shirodkar. They requested her to help her in the matter but she became angry and started shouting. As on earlier occasion, they had met Dr. Sneha Shirodkar, Head of Department directly, Head of Unit Dr. Ching Ling Yi probably felt annoyed and also angry because she felt that she was by passed in the matter. She said that she will have to listen such words from the three accused. In her statement also, Dr. Ching Ling Yi has admitted saying such thing. She was speaking loudly in English. Dr. Salman informed her that his wife Dr. Payal Tadavi was not being allowed by the accused Doctors to conduct deliveries and stitch the patient. New batch of Post graduate students have started coming and his wife is now second year student who must learn her

profession. In the meantime, a new girl (Doctor) joined the Unit but the accused did not allow her to work and help his wife and always used to ask her to sleep and directed Dr. Payal Tadavi to compete the work. Without properly listening to them, Dr. Ching Ling Yi responded that this is not her responsibility.

Mrs. Abeda further informed the Commission that on 13/05/2019, she went to meet the Dean of the Hospital but his peon did not allow him to meet. Instead he asked them to give the complaint in dispatch section which will come to the Dean in 3-4 days. Then, the Dean will mark to Head of Department for inquiry. Unable to meet the Dean, they went to Head of Unit who said that if they will give this complaint, the accused girls will torture her more.

On the day of incident, her daughter called her on mobile and talked for about half an hour. She had informed her mother that she had gone to take meals with her junior who also hailed from Jalgaon. She had taken selfie and posted in her social media group. Her daughter informed that the accused girls made comment that she was showing on her all 32 teeth in the photograph, they will not allow her to learn anything and they will drive her away. They also said that they are for one more year in the Hospital, they have thrown file on her face and will make her veterinary doctor. She was crying hard. Her mother, Mrs. Abeda asked her to go to the room of Doctor Salman. The three accused had heard this conversation and they threatened her of dire consequences.

She further informed the Commission that her daughter Dr. Payal Tadavi stayed in Resident doctor's room on the 8<sup>th</sup> floor whereas the accused doctors stayed on 9<sup>th</sup> floor of the building. Usually they didn't visited room of her daughter but on the day of incident around 6:00 P.M. to 6:15 P.M. they were just outside the room of her daughter. These accused doctors might have provoked her for committing suicide. It has been reported that they were among those who brought down her hanging body and took her to the casualty ward. The lock of the door of the room is also not broken which is suspicious thing.

2. Shri Dr. Salman, husband of Late Dr. Payal Tadavi also confirmed the above events related the incident and said that he was informed over mobile at about 7:30 P.M. that his wife has fainted and he immediately rushed to the Hospital. He was not informed about the fact that she was found hanging. He reached the casualty ward where the Doctors were giving CPR to his wife Dr. Payal Tadavi and he joined them. He informed Commission that the accused Doctors had been continuously harassing her for the last few months and he himself had accompanied her mother-in-law and wife on several occasions for amicable solution of the problems caused by her seniors. He fully supported and confirmed the events narrated by his mother-in-law Mrs. Abeda.
3. Shri Salim Tadavi, Father of Late Dr. Payal Tadavi also informed the Commission on the same lines, as that of his wife and son-in-law. He demanded for stringent action against the accused Doctors for harassing his daughter on caste grounds and sought justice in this regard.

#### **B. Meeting with ward and Operation Theatre Employees.**

The Commission met some of the officials and staff working with Dr. Payal Tadavi which included Ms. Arundhati Tilwe, Assistant Professor and Ward / OT staff members like Clara, Ruby James C. and Jyotika Vasave who informed that Dr. Payal Tadavi was a soft spoken and hardworking Doctor. Her behaviour with patients was very sympathetic and helpful. There was much work load in the Department and she was often rebuked by her senior Doctors for completing the work. There is work pressure on juniors and she didn't get time to eat. At many times she was seen crying. The behaviour of accused Doctors was hurting and they used to misbehave in presence of patients and their caretakers.

#### **C. Meeting with roommates of deceased**

The Commission discussed about the incident with roommates of the deceased Dr. Payal Tadavi which included Snehal Shinde, Bhagyashree Chevde, Geeta Kulkarni and Bhargavi. Ms. Snehal informed that one of the accused Dr. Hema Ahuja informed her that she and another accused Dr. Bhakti Mehre were standing out of the room of Dr. Payal Tadavi. They were

493

calling her for duty at around 6:45 P.M. and they knocked the door but there was no response when they peeped in the room. Dr. Bhakti Mehre saw her legs hanging. She shouted loudly. Dr. Hema Ahuja also saw it and screamed. They immediately called the security guard and opened the door with his help. They saw Dr. Payal Tadavi hanging and expecting her alive, immediately brought her body down. Dr. Ankita Khandelwal and employees of anaesthesia ward also assisted them in bringing the body down from gallows. Many people assembled there to see what has happened. They immediately rushed to trauma Unit. She said that Dr. Bhakti Mehre and Dr. Hema Ahuja were standing out of her room from the beginning of this fatal incident. On being asked, they informed that accused senior Doctors usually rebuked all of them including Dr. Payal Tadavi and all of them suffered from weight loss due to work pressure in the Hospital. In emergency duty, they have to work continuously for 24 hours.

#### **D. Meeting with parents of accused**

The Commission also met the parents of the accused Doctors which included Shri Suresh Ahuja and Mrs. Kavita Ahuja (father and mother of Dr. Hema Ahuja), Shri Arvind Mehre and Mrs. Anupama Mehre (father and mother of Ms. Dr. Bhakti Mehre) and Shri Kailash Khandelwal (father of Dr. Ankita Khandelwal) who informed that their daughters were friends of the deceased Dr. Payal Tadavi and they had never discriminated or misbehaved with her. They ruled out any discrimination on caste ground. They said that there was heavy workload in the Hospital and their daughters also were in similar work pressure. However, Dr. Payal Tadavi used to take mental pressure. In support of good relations of accused with the deceased, they submitted some photographs and WhatsApp chats amongst them.

#### **E. Meeting with representatives of SC/ST associations/organizations**

Representatives of Vanvasi Kalyan Ashram met the Commission and expressed their wrath over the death of Dr. Payal Tadavi due to caste based discrimination and harassment. They demanded justice for the family of the deceased and stressed the need to make aware the students

11 प-१

about the provisions against ragging. They also said that the Women Development Cell is not active in the Hospital and this the reason, this incident could not be prevented.

Akhil Bhartiya Aadiwasi Vikas Parishad, Maharashtra demanded for impartial inquiry into the painful incident. They demanded for arrest of all the accused, narco and DNA tests of accused, dismissal of officials of Hospital responsible for the incident protection of family members of the deceased, nomination of at least one member of SC/ST community in the Committees formed inquiry of the incident and inquiry into the incident of attack on Shri Dilrubab Iqbal Khan Tadavi in Jalgaon District who raised voice in the matter.

Shri Majid Tadavi, representative of Tadavi Bheel Yuva Samiti said that this incident is similar to that of Rohit Vemula case and Scheduled Tribes are being discriminated everywhere in the society. ST students are being discriminated on caste ground and suppressed everywhere. The dead body of Dr. Payal Tadavi was being taken to her native place, Jalgaon for cremation where her relatives stay but the Police officials have booked case against them.

#### **F. Meeting with State Health Department, police, BMC and hospital authorities**

The Commission held a meeting with the concerned Officers of State Govt. Health Department, Bombay Municipal Corporation, B.Y.L. Nair Hospital and Police authorities on the action taken by them in the incident. The Commission was informed as under:

- (i) Dean, B.Y.L. Nair Hospital informed the Commission that Dr. Payal Tadavi was appointed as Junior Resident (Jr.-1) in the Department of Obst. and Gynaecology from 09/05/2018. She was working in the Unit of Dr. Ching Ling Yi and Dr. Sneha Shirodkar was Head of the Department. Dr. Payal Tadavi who was pursuing Post-Graduation in the Hospital was found hanging in her Room No. 806. It has been stated that she had committed suicide due to harassment by her seniors namely Dr. Bhakti Mehre, Dr. Hema Ahuja and Dr. Ankita Khandelwal. All these three accused Doctors have been suspended due to continuous absence from the Department vide order dated

7-98

made. She and her family members brought this information to the notice of Head of Unit and Head of Department but no restraining action was taken by them. Even they tried to approach the Dean of the Hospital but could not succeed. The action was taken only after her death. The accused Doctors were the first who came to know about the death of Dr. Payal Tadavi and their movement was reportedly recorded in the camera of the Hospital. They also reportedly went in the room immediately after body of Dr. Payal Tadavi was taken to trauma Unit. These issues need detailed inquiry. The family members of the deceased Doctors have blamed caste based discrimination and harassment which needs to be inquired into thoroughly. Other Doctors and staff members have also made adverse comments about the behaviour of accused Doctors.

#### H. Recommendations of the Commission.

Keeping in view the seriousness of the incident, the Commission recommends that:

- (i) Ministry of Health and Family Welfare, Medical Council of India, Medical Education Departments of all the State Governments and Union Territories should issue strict instructions to all the Medical Institutions in the country to take effective measures to stop the incidence of caste based harassment and discrimination with the students and employees of weaker sections of the society, particularly, the Scheduled Tribes. It may be notified that such incidents will be taken very seriously and stringent action shall be taken in the event of such complaints including termination from the institution and initiation of action by police.
- (ii) Students pursuing various courses in the Medical Institutions of India should be made aware about the problems being faced by the Scheduled Tribes and Scheduled Castes in the society and various measures taken by the Central and State Governments for protection, welfare and safeguarding these communities from any kind of discrimination and harassment. It should be made a part of the curriculum in the first semester of the course.

- (iii) Detailed and impartial inquiry into the case be held by the CID within the time prescribed under the SC&ST (PoA) Act, 1989.
- (iv) Role of the accused Doctors in the incident particularly before and after recovery of her body may be thoroughly investigated in light of recordings in the camera and statement made by the witnesses. If required, Narco and DNA tests be undertaken for the purpose after following the prescribed procedure. Call details of the mobile phones and social media accounts of accused Doctors as well as deceased Doctor be obtained and used for investigation.
- (v) Viscera examination report of the deceased Doctor be obtained by CID from the Forensic Science Laboratory at the earliest.
- (vi) A copy of post-mortem report of Dr. Payal Tadavi be provided to the Commission and her family by the CID which has not been given so far.
- (vii) No monitory compensation was paid to the family members of the deceased Dr. Payal Tadavi. It was informed that the same is in process. Monitory compensation, as admissible under the SC & ST (PoA) Rules (Revised) may be sanctioned and paid to her family urgently.
- (viii) Adequate security to the family members (father, mother and husband) of deceased Dr. Payal Tadavi be provided by the State Govt.
- (ix) On the basis of evidence, Dr. Ching Ling Yi, Head of Unit and Dr. Sneha Shirodkar, Head of Department be made co-accused in the case.
- (x) The role of Peon attached with the Office of Dean of B. Y. L. Nair Hospital be thoroughly inquired and action taken against him for negligence of duty.
- (xi) A detailed report on alleged incident of attack on the Scheduled Tribe social leaders in Jalgaon district while carrying the dead body of Dr. Payal Tadavi including details of cases registered against them be sent to the Commission within a period of one month from the date of receipt of this report.

Dear Dr. Kalidas D. Chavan

Greetings from Elsevier!!!

Trust you and the entire MUHS family are keeping well in these tough times. We at Elsevier, express gratitude & applaud the efforts of the entire healthcare worker community of India in serving humanity.

In this difficult and uncertain time, amidst the COVID-19 pandemic, We understand that many academic institutions are making unprecedented decisions to transition to a fully online curriculum in order to mitigate the spread of the virus. I realize this decision has come with a sense of urgency to provide students with a virtual learning environment and resources that will limit the impact to their learning and I wanted to let you know that at Elsevier we are here to help and support you during this time.

How can we help?

We would like to offer access to ClinicalKey Student, our virtual learning platform that provides access to hundreds of textbooks, study tools and video resources, to you and your students, at no cost, until the end of June. It supports the self-directed learning of your students by enabling them to set self-assessments to monitor and progress their learning and allows you to create digital learning materials and send reading assignments.

In addition, we have also curated a selection of medical resources (anatomy lectures, mini cases and activity sheets) to supplement your remote teaching strategies in an online hub that you can utilize to engage your students as they learn from home. We will be updating the hub with new content weekly and will provide links to informative webinars hosted by your peers, sharing best practice approaches to teaching remotely.

Video on ClinicalKey Student : <https://www.youtube.com/watch?v=IWQsKTz92Kw>

Please find mentioned below, our action plan in an endeavor to enter into a possible collaboration with MUHS:

- Elsevier is pleased to offer the ClinicalKey Student Trial Access to the interested Medical Colleges that come under the MUHS Purview **(Trial Period : 1st Sept' 2020 to 14th Nov' 2020)**
- We recommend a Series of Webinars on ClinicalKey Student (3 each for Students & Faculties) wherein an invite can be sent out to all the Medical Colleges through MUHS for participation in the Webinars
- A Trial Access (Valid till 15th November' 2020) can be activated for the Medical Colleges which show an interest to avail the same post attending the Webinar

A positive endorsement of the ClinicalKey Student Platform from MUHS will further help Elsevier in collaborating with interested Medical Colleges.

We look forward to your guidance on the way forward.

# Priorities and Challenges for Indian Medical ...

## Institutes

- **Accreditation and Med Ed Excellence.** Implement new curriculum, Profiler/ Rank
- **Lack of standardization:** Faculty training / attrition, Resource crunch
- **World class, comprehensive, validated content and product**
- **Periodic tests** to ensure key concepts are mastered
- **Low usage/ Slow adoption** of e-solutions

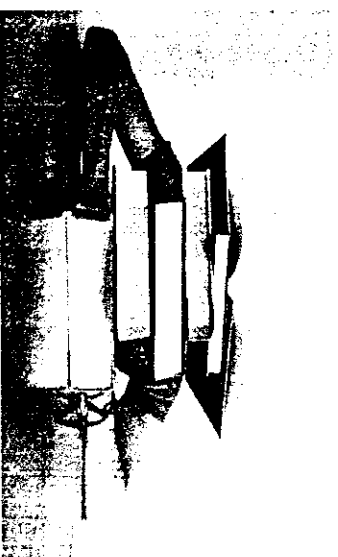

## Faculty

- **Internet access.** Digital Infrastructure issues
- **Time crunch** due to patient load and vast syllabus. Prepare **effective teaching material**
- **Millennials** have limited attention span in class. **Prioritize PG entrance**
- **Implement new curricula** and **formative assessments**
- **Impart hands-on skills** and **competencies**

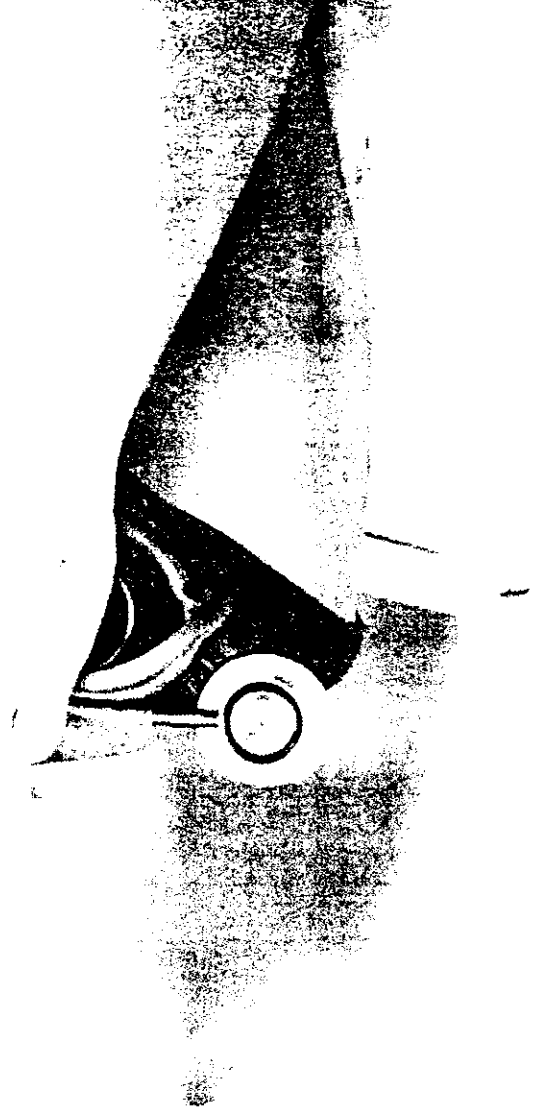

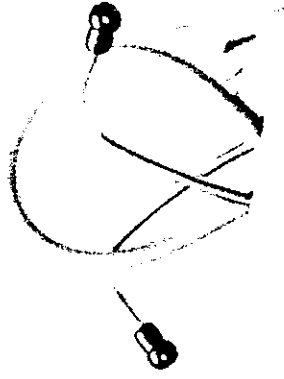

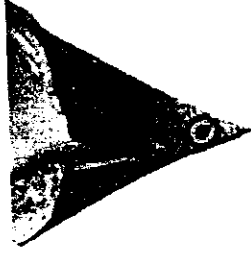

## Students

- **Vast syllabus** to cover. **Time crunch**
- **Efficiently prepare** and score in university exams. Save time off study/ for PG prep
- **Clear PG entrance.** Get seat of choice
- **Hands on clinical and practical skills** to be a good doctor ; in turn earn well
- **Immense pressure to perform.** Peer competition. Mental health concerns

# The challenges students will face as professionals...

- Acceleration of medical information.
- Moving from class to clinics
- Applying knowledge to clinical problems
- Fear of failing

# The next generation needs a different way

Limited attention span. Want to learn efficiently, so that they have time off study

Different learning preferences and expectations:

- Self learner/explorer.
- Collaborative.
- Digital immersed.
- Visual and experimental.
- Entrepreneurial.

# The Future of Undergraduate Medical Excellence

## ClinicalKey Student

### Foundation capabilities

- Leading Global and Indian textbooks
- Clinical and Practical Skills videos
- High resolution images/videos
- Synoptic - Quick access summary pages
- Interactive learning tools

Like Elsevier Super Google – Search Engine

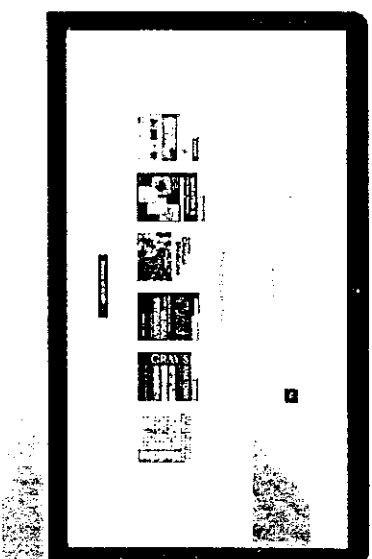

### Assessment capabilities

- Ready 2100+ OTQ bank across all MBBS subjects
- Curated by expert educators and doctors
- Formative/ Self assessment
- Identify "areas-of-improvement" & "at-risk-students"
- Trusted Inline and Linked remediation content

Feedback Super Power – Formative/ Self tests

# Foundation capabilities

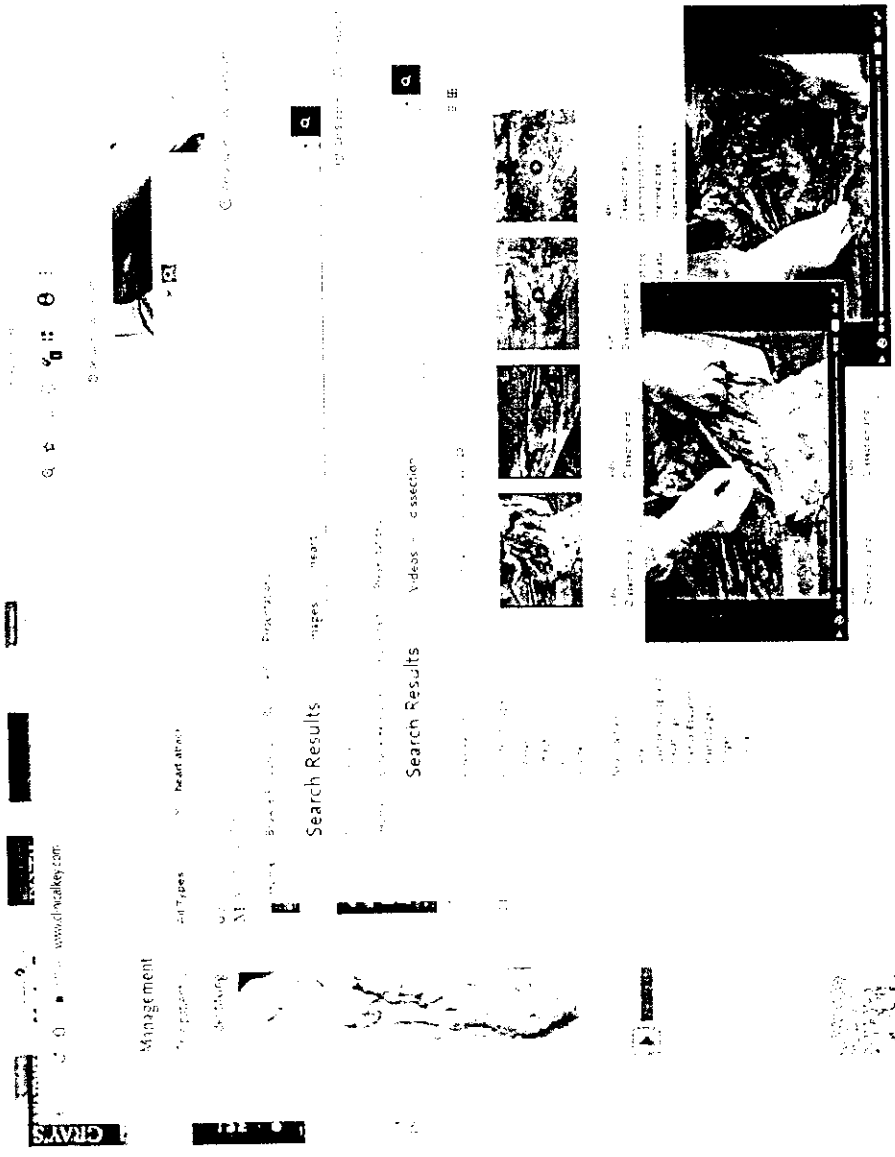

ClinicalKey Student

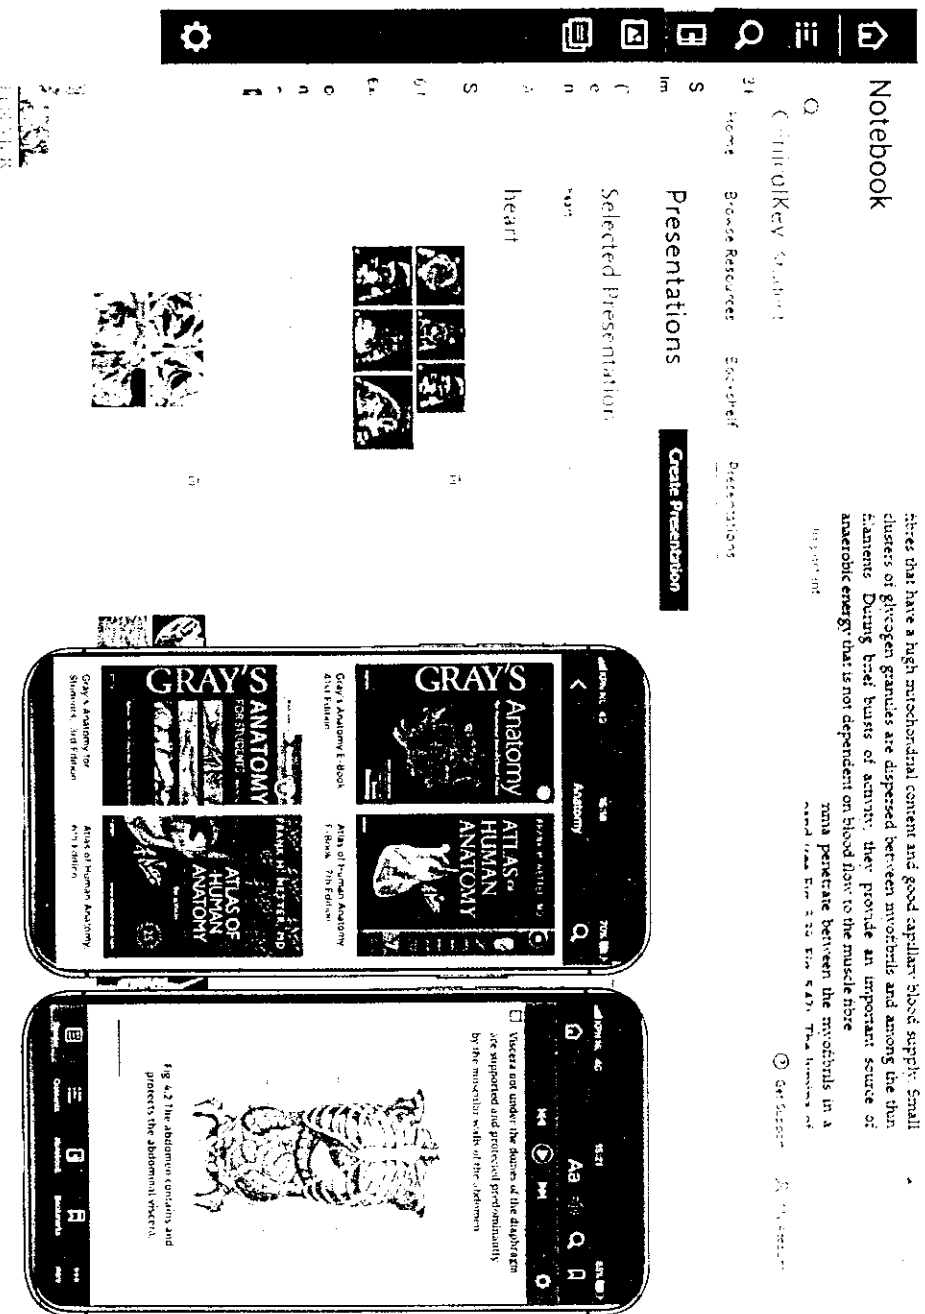

# Access to most complete, trusted, global and Indian content

- **239+ Global undergraduate textbooks** like Grays, Robbins, Davidson, Kumar and Clarke
- **35+ Indian authored undergraduate books** like Dhingra ENT, Vishram Singh Anatomy, Shaw's
- **150+ hours real-life procedure videos and animations** on must-have MBBS skills, shot in India
- **1,500+ quick access summaries** (Wikipedia-like synoptic pages) on common diseases and topics
- **Copyright cleared 85,000+ high resolution images** - Discoverable & Downloadable
- **850+additional videos** ranging from anatomical dissection demos to instructional clinical exams

# Turning information into knowledge

- Personalized Bookshelf + Note Taking
- Highlight and Save to OneNote
- Download and Print custom handouts
- Flashcard tool
- Share notes/learning across globe

## Presentation maker

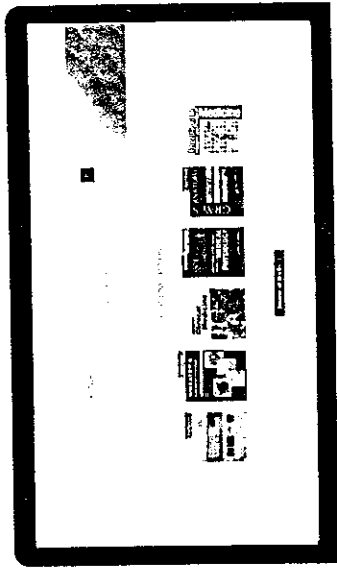

- Save time with Presentation maker
- Copiable URLs and Deep links

## Bookshelf App

- Anytime, Anywhere access -even if offline/ off campus
- Text to Speech reads out books in the app for learning on the go

MARC 21 RECORDS - Free for library to readily upload books list catalog. Saves time, enhances content discoverability and usage

# How do you conduct formative assessments/intermittent class tests today? How do students self-study?

## For Faculty

- "Vast syllabus; course completion challenge. Scope to plan future classes limited"
- "Answer sheet checking is time consuming and cumbersome. Can't give instant results"
- "Only the motivated students self-study/ self-assess. Don't learn all key topics in my subject, prioritize PGMEET"
- "Limited scope for individual feedback in the subject, due to large class size"

## For Students

- "Vast syllabus. If I can know which topics to focus - especially while self-study/ before exams..."
- "How I am doing compared to my class? Am I covering all key concepts of the subject while self-study?"
- "In higher profts I would like to practice questions on a topic holistically across subjects"
- "Want more practice OTQs, soon after a topic is taught, to clear concepts and be better prepared for PGMEET"

## For Institutes

- "New curriculum states minimum 50% score in formative tests for student to appear in finals"
- "Now need to share log book reports with MCI/ Accreditation body, periodically"
- "Lack of Med Ed trained/ tech savvy faculty. May not get standardized quality questions"
- "Lack of view on individual, group and cohort performance"

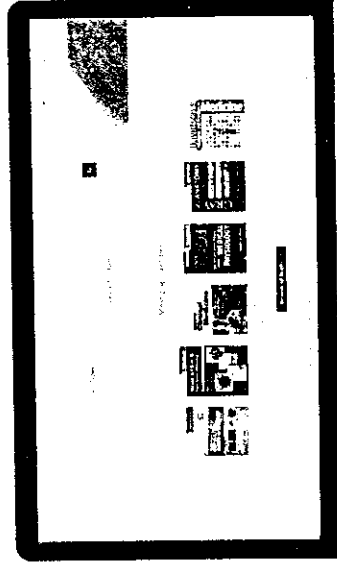

# Improve learning outcomes of students

The screenshot shows a search interface for 'ClinicalKey Search'. The search term 'Optic Neuritis' is entered, and the results show a score of 33% and a total time of 33 seconds. The interface includes navigation tabs like Home, Assignments, Performance, Browse Resources, Bookshelf, and Presentations. A sidebar on the left lists various content types such as 'Specialties', 'Anatomy', 'Diagnosis', and 'Treatment'. The main content area displays a search result for 'Optic Neuritis' with a 'Quick Access Summary' and a 'Definition' section. The 'Definition' section includes a link to 'Most relevant sections: Idiopathic Acute Optic Neuritis'.

- After self-study/ self-directed-learning, students can self-assess at their own pace
- In higher profs, practice questions on a topic holistically across subjects
- Get instant personalised feedback, benchmark themselves with their peers
- Know which topics to focus to master all key concepts - especially before exams"
- Retest to revise, focusing on their weaknesses; thus reinforce & remember those topics better"
- Weak topics linked to additional learning resources (links to Foundation capabilities)

# In a nutshell

# What does OK Student bring to Indian Medical colleges?

Support tool to  
implement new  
MBBS curricula

Group and Individual  
Usage Analytics  
Available

Online, Offline,  
In-campus and Off-campus  
access for all

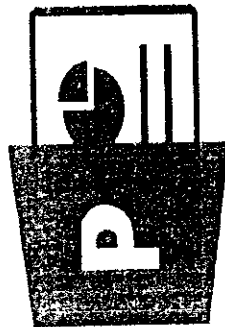

Standard question bank to easily conduct and  
report periodic formative tests. Know at-risk  
students & areas-of-improvement

# What does CK Student bring to Indian Medical Faculty?

Create, Print and Share custom PPTs and hand out notes to save faculty/ student time

Keep class engaged. Do Integrated Learning and Early Clinical Exposure

Procedures can be seen by all . Run students through skills videos before class and clinics.

Easily conduct formative tests. Efficiently plan future classes by knowing "areas-of-improvements" and "at-risk-students"

# What does OK Student bring to Indian Medical Students?

Prep assignments and  
Revise/ Revisit concepts from  
multiple sources all at a place

Now you don't have to carry bulky  
books always. Read while  
commuting or off campus

Quick Access Summaries: Synoptic  
content at fingertips when you need to  
quickly refer topics/ cases. in clinics

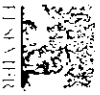

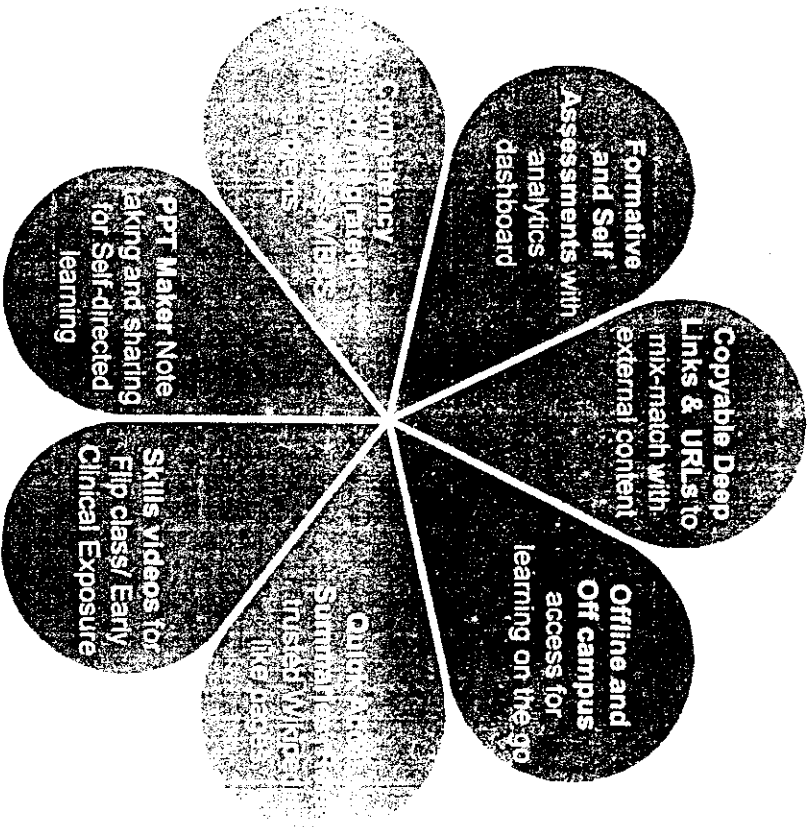

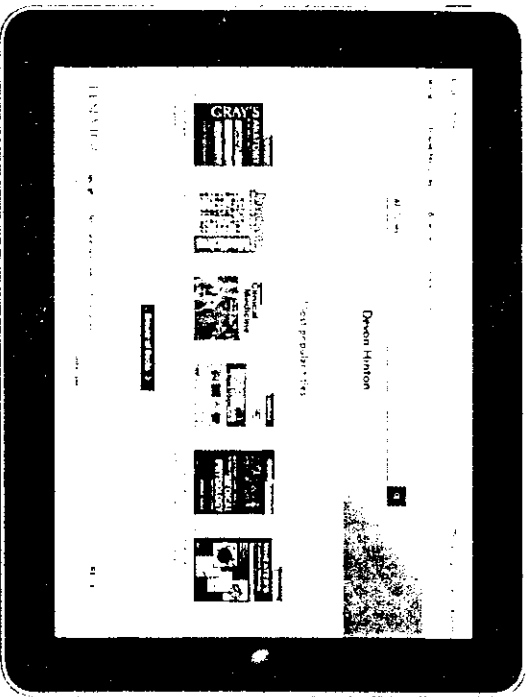

Effectively prepare and excel in your  
exams. Identify specific topics you  
must focus to master key topics

# How can CK Student support implement the new UG curriculum?

Competency based Skills Focus – Practice		>150 hours of skills videos + >85K high res images to cover Show/ Show-How/ Perform competencies
Horizontal and Vertical Integrated learning		>270 books and skills videos across all MBBS subjects to mix-match and learn a topic holistically
Early Clinical Exposure		Clinical vignettes, questions, skills videos, quick access summaries for clinical relevance of a topic
Periodic formative tests. Personal Feedback		Students self-assess. Faculty (in institutes with LMS can do periodic tests; know individual/ class progress
Student-focused – Self Directed Learning		Allows students to study what, when and how they want– especially the Knowledge- competencies
Learning anytime, anywhere		Anytime, anywhere access to each user using app (online/offline and off campus versions available)
AETCOM		Covered through instructional clinical examination videos and in books
Public and Mental Health		Select books available on these subjects

# How does ClinicalKey Student play a role in remote teaching?

ClinicalKey Student is an interactive education platform that supports students and faculty with tools tailored to develop and assess the medical knowledge of aspiring professionals. Whether your university is making the transition to distance learning or simply increasing its online education presence, ClinicalKey Student is here to help.

**Creating efficiencies**  
Enhance your online lectures with the presentation tool that allows you to quickly add copy-right cleared images which are properly cited. PowerPoint presentations can also be downloaded and shared with students working remotely.

## Adapting to workflows

Create digital learning materials by adding durable URLs that send students directly to specified content. Links can be embedded in presentations or shared through remote conferencing services and instant messaging platforms.

## Ensuring productivity

Virtually provide students with support and direction by creating focused reading assignments. Simply select specific chapters, page ranges or paragraphs and share the assignment link with your students.

## Encouraging flexible working

With a digital learning platform, students have access to extensive content and interactive study tools anytime, anywhere. Students can curate their own personal online bookshelf and download books for offline reading.

## Supporting learning on the go

The Bookshelf mobile app offers students a seamless experience, as they can continue to highlight text, make notes and create flashcards from their mobile or tablet.

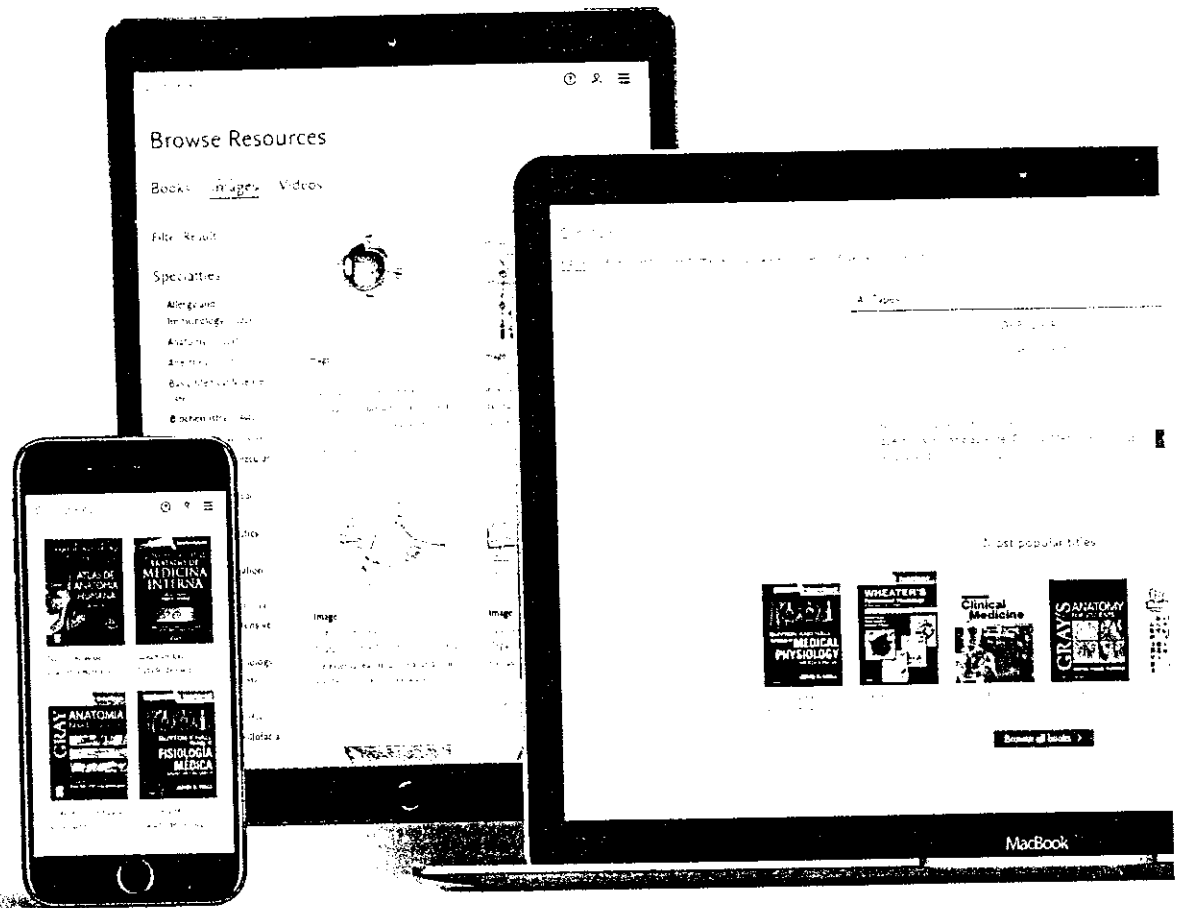

## Promoting collaboration

Students can stay connected with their fellow students through the sharing capabilities within Bookshelf. Highlights and notes that are made public will allow students to continue to work together virtually.

सादर,

विषय : आधुनिक औषधशास्त्र अभ्यासक्रमाच्या परीक्षेमध्ये नियुक्त करण्यात येणाऱ्या शिक्षकांच्या संख्येबाबत..

टिप : आधुनिक औषधशास्त्र अभ्यासक्रमाच्या विद्यापीठातर्फे प्रथम परीक्षेचे आयोजन हिवाळी २०१७ मध्ये करण्यात आले होते. या अनुषंगाने अवगत करण्यात येते की, आधुनिक औषधशास्त्र अभ्यासक्रमाच्या विद्यार्थ्यांकरीता निर्धारित परीक्षा पध्दती प्रमाणे दोन लेखी विषयांच्या उत्तर पत्रीका आणि एक प्रात्यक्षिक परीक्षा घेण्यात येते. यामध्ये प्रात्यक्षिक परीक्षेमध्ये समाविष्ट सहा विषयांची परीक्षा घेण्यासाठी चार परीक्षकांची नियुक्ती करण्यात येते तसेच लेखी परीक्षेच्या उत्तर पत्रीकांची तपासणी करण्यासाठी सहा परीक्षकांकडून प्रथम तपासणी व त्यानंतर द्वितीय तपासणी करण्यासाठी सहा अशा एकुण बारा परीक्षकांकडून दोन उत्तर पत्रीकांची तपासणी करण्यात येते. याबाबत असे निदर्शनास आले आहे की, एक उत्तर पत्रीका तपासण्यासाठी दहा शिक्षकांची नियुक्ती करावी लागत असल्याने उत्तरपत्रीकांच्या मुल्यांकनादरम्यान अडचणी निर्माण होतात. तसेच एका उत्तर पत्रीकेचे पुर्ण मुल्यांकन होण्यासाठी सर्व विषयांच्या शिक्षकांना आमंत्रित करतांना मुल्यमापन केंद्रावर नियुक्त अधिकारी आणि कर्मचाऱ्यांना अडचणी निर्माण होतात पर्यायाने उत्तरपत्रीकांचे मुल्यांकन होण्यास विलंब होऊन निकाल प्रक्रिया पुर्ण होण्यास देखिल विलंब होतो. या अनुषंगाने सदर परीक्षांमध्ये नियुक्त कराव्या लागणाऱ्या शिक्षकांच्या संख्येत कपात करण्यात यावी असे वाटते करीता सदर विषय आगामी अभ्यासमंडळाच्या बैठकीत विचारार्थ तथा निर्णयास्तव सादर करण्यास मान्यतेस्तव सादर.

Respected Sir ,

I hereby apply for kindly considering giving recommendation to the 3<sup>rd</sup> edition of Textbook of Dermatosurgery and Cosmetology: Principles and Practice as official textbook for diploma and degree post-graduation examination in Dermatology, Venereology and Leprosy by MUHS, Nashik, Maharashtra.

The 2<sup>nd</sup> edition of this book was already recommended for DNB post-graduation examination in Dermatology, Venereology and Leprosy and the 3<sup>rd</sup> edition also enjoys the same status. The 2<sup>nd</sup> and the present 3<sup>rd</sup> edition is also the textbook for diploma and degree post-graduation examination in Dermatology, Venereology and Leprosy at Rajiv Gandhi University of Health Sciences, Bengaluru. The textbook is already being followed by post-graduate diploma and degree students and by practicing dermatologist ever since its 1<sup>st</sup> edition all over India.

Dear Dr Raorane,

Greetings!

I hope this letter finds you well. Please allow me to introduce myself. I, Dr Ramji Gupta, am the author of the second edition of 'Essentials of Dermatology and Sexually Transmitted Diseases: An Illustrated Synopsis', published by Universities Press.

I hope you have received the complimentary copies of my book and have had the opportunity to peruse the same. I hope you will agree that the book will be very useful for MBBS students.

ABOUT THE BOOK

'Essentials of Dermatology and Sexually Transmitted Disease: An Illustrated Synopsis' (2nd edition) is an easy-to-read book that addresses theory as well as clinical sections of the undergraduate medical curriculum. It will also be useful to the general practitioner handling dermatological cases in routine practice.

KEY FEATURES OF THE BOOK

- **Twenty-five chapters** with concise description of diseases, their classical presentation and currently used methods of treatment.
- Classification of most of the diseases according to their etiological mechanism.
- **Bulleted text** for a clear and crisp presentation to assist the undergraduate medical student.
- A total of **134 tables** for easy retention of information and effective presentation during the examination.
- Text interspersed with **584 clinical photographs** providing crucial visual information about the skin conditions.

- **High quality colour images** to clearly demonstrate the results of treatments like cryotherapy, skin excision, grafting, etc.
- An additional section on the **Syndromic Management Approach for STDs** to cater to the requirements of the curriculum; also useful to the practitioners in healthcare settings.
- A **consolidated document** for Management Options in Dermatology provided as an appendix.

Having incorporated the **latest** concepts and the changes adapted by the Medical Council of India (MCI), the **present** edition of the book will cater to the needs of students and teachers in Dermatology **and** STD.

I humbly request you to **submit** this book to the members of the MUHS Board for consideration as the **recommended** textbook for undergraduate MBBS students.

I look forward to a **positive** response.

Thank you.

Yours sincerely,

(Dr Ramji Gupta)

**Agenda No.AC/XXXVI-06/20**

**Subject:**

**Preparation for implementation of Phase-II MBBS curriculum as per the Competency Based Undergraduate Curriculum (CBME) for Indian Medical Graduate 2018, (IMG 2018) notified by MCI.**

**Discussion:**

Secretary informed that the subject was discussed in the 36<sup>th</sup> meeting of the Academic Council held on 30<sup>th</sup> Sept. 2020, where it was noted that during the 21<sup>st</sup> meeting of the Faculty of Medicine and in the meetings of various Boards of Studies a discussion on undergraduate curriculum of Phase-II MBBS and the clinical departments involved with teaching, learning, evaluation in Phase-II MBBS for implementation of Competency Based Undergraduate Curriculum for Indian Medical Graduate 2018, notified by MCI No.MCI-34(41)/2019-Med./161726 dt. 4<sup>th</sup> Nov. 2019

has taken place. The draft curriculum of Phase-II MBBS has been presented before the Council.

After detailed discussions the Council approved the same.

**Resolution:**

**After detailed discussions, the Academic Council resolved to approve for implementation of Phase-II MBBS curriculum as per the Competency Based Undergraduate Curriculum (CBME) for Indian Medical Graduate 2018, (IMG 2018) notified by MCI (2019-20 Batch onwards).**

**Agenda No.AC/XXXVI-07/20**

**Subject:**

**Approval of Log book for CBME UG Curriculum.**

**Discussion:**

Secretary informed that Log book will primarily contain certifiable skill certificates, AITo topics, Self-Directed Learning, AETCOM reflections and other activities. During the deliberations on the above subject in the 21<sup>st</sup> meeting of Faculty of Medicine held on 4<sup>th</sup> July 2020 the members decided that Final soft and hard copies of Log book of Phase-II and the clinical postings of the students during Phase-II MBBS has been finalized. The draft copy of which has been presented before the council.

Dr.Anand said that Log Book integrated with subject /department wise, but MCI says Phase wise Log book, hence please go through the regulations. Please relook, as it is not subject specific, phase wise log book.

Dr.Anshu said that both are allowed.

Secretary said that The Academy has decided to have logbooks subject-wise as the guidelines for preparing logbook published by MCI/NMC has allowed for the subject wise or phase wise log books.

**Resolution:**

**After detailed discussions, the Academic Council resolved to approve subject wise Logbook for CBME UG Curriculum.**

**Agenda No.AC/XXXVI-08/20**

**Subject:**

**Competency Based Medical Education (CBME) Postgraduate (PG) Curriculum**

**Discussion:**

Secretary said that the Competency Based Medical Education for postgraduate curriculum was discussed in the 21<sup>st</sup> meeting of the Faculty of Medicine held on 4<sup>th</sup> July 2020 in detail including Entrustable Professional Activity (EPA) as outcomes, teaching learning methods and quarterly assessment as per the CBME guidelines of the MCI.

Secretary informed that the CBME – PG curriculum was in to two components, one general component and the other is subject specific component with entrustable professional activities. Dr.Anshu suggested to add Team Based Learning in the curriculum.

Dr.Anand suggested to incorporate all the modifications into the final document as it is procedural perspective rather than contents.

The Council discussed the CBME curriculum for the postgraduates and approved the same from the academic year 2019-20.

**Resolution:**

**After detailed discussions, the Academic Council resolved to approve the Competency Based Medical Education (CBME) Postgraduate (PG) Curriculum consisting of curricular details including Entrustable professional Activity (EPA) as outcomes, teaching learning methods and quarterly assessment as per the CBME guidelines of the MCI from the academic year 2019-20.**

**Agenda No.AC/XXXVI-09/20**

**Subject:**

**Presentation of Feedback regarding curriculum taken from stakeholders.**

**Discussion:**

Secretary briefed that The Academy has been taking feedback regarding curriculum of programmes offered under Faculty of Medicine and Faculty of Allied Health and Basic Sciences from students, teachers, alumni and professionals. The

feedback has been analyzed at the office of Director Academics and it has been shared with all the Chairmen of Board of studies for discussion and action to be taken based on the suggestions. The boards can incorporate the suggestions after assessing the needs or changes suggested. The summary of the ATR on curriculum feedback for the years 2018-19 and 2019-20 have been briefed to the Council. Further he said that the previous years feedback are essential to be ratified in Academic Council meeting so that it can be shown as ratified agenda for NAAC SSR document.

The Council after discussions accepted the feedback obtained from different stakeholders and decided to implement the action as suggested in the report in their respective curriculum.

**Resolution:**

**The curricular feedback obtained from different stakeholders was accepted by the Academic Council and decided to implement the action as suggested in the report in their respective curriculum.**

**Agenda No.AC/XXXVI-10/20**

**Subject:**

**Revision of Internal Assessment marks for CBME curriculum of MBBS Phase-I and Phase-II.**

**Discussion:**

Secretary said that as per the recent document available on the MCI Website as the Competency Based Assessment (CBA module 3) module, it has been specified that the Internal assessment marks for each subject will be out of 100 for theory and out of 100 for practical/clinical (except in General Medicine, General Surgery and Obstetrics & Gynecology, in which theory and clinical will be of 200 marks each). Internal assessment marks will reflect as a separate head of passing at the summative examination and will not be added to the University marks as well as twenty five percent of weightage in theory tests in General Medicine and General Surgery should be given to allied subjects and there should be at least one question from each allied subject.

The Council discussed the subject and approve the same.

**Resolution:**

**The Academic Council resolved to approve for revision of Internal Assessment marks for CBME curriculum of MBBS Phase-I and Phase-II from 2019- 20 batch onwards.**

**Agenda No.AC/XXXVI-11/20**

**Subject:**

**Determining the percentage of teaching hours of theory and practical components for the purpose of attendance calculation.**

**Discussion:**

Secretary informed that the Regulation on Graduate Medical Education (amendment), 2019 does not clarify the teaching hours that constitute theory and practical for attendance calculation i.e. attendance of AITo, SGT, ECE, SDL under theory or practical for calculating eligibility. The subject was discussed in the 21<sup>st</sup> meeting of the Faculty of Medicine held on 4<sup>th</sup> July 2020 and it was decided to follow the MCI, GMER 2019 guidelines No.MCI/34(41)/2019-Med./161726 dated 04-11-2019 (Tables in the Page nos. 68-71) and Chapter IV, page 66, clause 7.5, didactic lectures shall not exceed one-third of the schedule; two-third of the schedule shall include interactive sessions, practical, clinical or/and group discussion.

Further it was informed that in the 21<sup>st</sup> meeting of Faculty of Medicine held on 4<sup>th</sup> July 2020, it was resolved that "Didactic lectures alone under theory and all the other methods of teaching-learning to be included under practical for calculating attendance. 75% theory and 80% practical attendance is required for eligibility to appear for summative examination in that SUBJECT. 75% attendance in AETCOM module is required for eligibility to appear for summative examination in each Professional year, as per GMER 2019 guidelines (Page 74, Clause 9.4.3)".

Chairman suggested to wait till new NMC decision.

Dr.Basavana Gowdappa said that there is no clarity in NMC guidelines, implement it now and modify later once new guidelines received.

**Resolution:**

**Academic Council resolved to approve for determining the percentage of teaching hours of theory (didactic lectures alone) and practical components for the purpose of attendance calculation.**

**Agenda No.AC/XXXVI-12/20**

**Subject:**

**Validation of questions prepared to test competencies and justification for its inclusion in formative/summative assessments as per the criticality -feasibility grid.**

**Discussion:**

Secretary informed that The Academy is in the process of developing a Question Bank and validation of questions to be contributed to the Question Bank of The Academy is a continuous process, with the implementation of CBME curriculum the prepared questions have to test the competencies and should have a justification for its inclusion in formative/summative assessments as per the criticality-feasibility grid. MCQs will become a part of summative assessments of The Academy for MBBS Question papers.

It was informed that the subject was discussed in the 21<sup>st</sup> meeting of the Faculty of Medicine held on 4<sup>th</sup> July 2020, where the following Question paper pattern was discussed and recommended:

- Two long essays (10 marks each),
- Six short essays (5 marks each),
- Ten short answers (3 marks each) and
- 20 MCQs.

Minimum 20% of the Question paper should be Case based questions/MCQs.

Secretary said that to bring in uniformity in the summative and formative examinations the above pattern will be followed, which is aligned to the NMC Competency Based Assessment module.

Dr.Unnikrishnan suggested that case based questions not only in MCQs but also in other places. Dr.Anand asked how to differentiate short essays and short

answers and any guidelines are available in this regard. In response, Dr. Vinutha Shankar said that 5 marks questions are application based, structured, more importantly comprehension aspects and 3 marks questions more of objective and application based.

Dr. Basavana Gowdappa said that these should be more of competency based evaluation should be kept in mind and clarity on what is expected. Model questions and model answers should be known to the students and also provision for application based and case based questions.

**Resolution:**

**The Academic Council resolved to approve validation of questions prepared to test competencies and justification for its inclusion in formative/summative assessments as per the criticality-feasibility grid.**

**Agenda No.AC/XXXVI-13/20**

**Subject:**

**Proposal to start Fellowship Program in Blood Bank.**

**Discussion:**

Secretary informed that the curriculum for Fellowship program in Blood Bank Technology which will be offered by the Department of Pathology for duration of one year was discussed in the 21<sup>st</sup> meeting of Faculty of Medicine held on 4<sup>th</sup> July 2020 and it was resolved to present the Curriculum in Academic Council meeting after incorporating the various suggestions given by the Faculty of Medicine. He asked the HoD of Pathology to brief on Fellowship program in Blood Bank. In response, HoD briefed the proposed Fellowship program.

After detailed discussions the Council members suggested to review and resubmit the curriculum.

**Resolution:**

**The Academic Council resolved to review and resubmit the curriculum for Fellowship program in Blood Bank Technology.**

**Agenda No.AC/XXXVI-14/20**

**Subject:**

**Approval of Academic Policy.**

**Discussion:**

Secretary briefed that The Academy has prepared a draft Academic policy which mainly involves the implementation and academic operations. This policy should be instrumental in realizing the vision, mission and values of The Academy. The contents of this Academic Policy manual were briefed to the Council.

Chairman informed that in several areas there are no policies and arbitrary decisions were taken and some of the policies are not clear and there were lot of grey areas. Now The Academy has modified these policies.

The Council discussed the Academic policy and approved the same.

**Resolution:**

**The Academic Council resolved to approve the Academic Policy of Sri Devaraj Urs Academy of Higher Education and Research.**

**Agenda No.AC/XXXVI-15/20**

**Subject:**

**Approval for the revised Examination Manual of The Academy.**

**Discussion:**

Secretary informed that the Examination Manual of The Academy was last prepared in 2008 and after that there have been lot of changes brought in by the regulatory authorities, a number of new programmes have been added and there is a UGC directive for Quality mandate in examination reforms. Therefore, The Academy has revised the Examination Manual incorporating all the needed changes and various notifications related to examinations.

## **SRI DEVARAJ URS ACADEMY OF HIGHER EDUCATION AND RESEARCH**

(Declared Under Section 3 of UGC Act 1956, MHRD GOI No. F.9-36/2006-U.3 (A), Dt. 25<sup>th</sup> May 2007)

Chairman informed that this policy was earlier adopted from RGUHS and implemented the same. The policy needed strong reforms.

Secretary said that the manual talks about rules and responsibilities of the officers involved in examination, regulations for conduct of examinations of Allied Health Sciences, allowance for examination work, fee for examinations, guidelines for issue of certificates and marks cards etc.

Chairman, Secretary and Dr.Basavana Gowdappa complimented the Controller of Examinations for preparing the document.

### **Resolution:**

**The Academic Council resolved to approve the revised Examination Manual of The Academy.**

### **Agenda No.AC/XXXVI-16/20**

### **Subject:**

**Approval for Standard Operating Procedures of Examination Section of The Academy.**

### **Discussion:**

Secretary briefed that conduct of university level examinations requires meticulous planning, thorough execution of such plans and putting mechanisms for monitoring and supervision in place. In order to ensure a flawless process of the university examinations this SOP has been prepared by the Examination Section under the leadership of Controller of Examinations. For better understanding and comprehension the SOP is divided into sections from 1 to 17.

Chairman said that earlier SOPs were non-existent, now under the leadership of Controller of Examinations clearly spelt out. He thanked the Controller of Examinations for preparing the document.

The Council discussed the Standard Operating Procedures of Examination Section of The Academy and approved the same.

**Resolution:**

**The Academic Council resolved to approve Standard Operating Procedures of Examination Section of The Academy.**

**Agenda No.AC/XXXVI-17/20**

**Subject:**

**Approval for merging the students of non CBME (Repeaters) batch passing / failing their respective examinations in to the CBME batch.**

**Discussion:**

Secretary informed that with a concept of having no repeater batches and its associated stigma in the repeater batch, the students of the non CBME (Repeaters) batch should be absorbed into the CBME batch phase wise i.e. the current 2019 CBME batch once it passes the Phase I MBBS and enters the Phase-II MBBS, the repeaters of the non-CBME curriculum passing the Phase-I MBBS should be merged with the CBME batch.

Chairman is of the opinion that logistically it is not easy to keep all the batches.

Dr.Basavana Gowdappa said that merger is not correct and The Academy should keep them separately and allow them to clear the examination. Dr.M.L.Harendra Kumar also said that The Academy cannot merge till the end as they are admitted under non-CBME batch.

After detailed discussions the Council approved the proposal and suggested to obtain legal opinion and also write letters to MCI and parents before implementation.

**Resolution:**

**The Academic Council resolved to approve for merging the students of first year non CBME (Repeaters) batch passing / failing their respective examinations in to the CBME batch and suggested to obtain legal opinion and also write letters to MCI and parents in this regard before implementation.**

**Agenda No.AC/XXXVI-18/20**

**Subject:**

**Approval for including research and publications ethics as compulsory component of Pre-Ph.D. course work.**

**Discussion:**

Secretary said that as per the directions of the U.G.C. “Research and Publication Ethics (RPE)” should be a compulsory component of Pre-Ph.D. registration course work in the Ph.D. programmes of The Academy. In this regard, “Research and Publication Ethics” module has been shared with the Council members.

Council discussed the proposal and approved the same.

**Resolution:**

**The Academic Council resolved to approve for inclusion of Research and Publications Ethics as compulsory component of Pre-Ph.D. course work in the Ph.D. programmes of The Academy from 2020-21 admitted Batch onwards.**

**Subject:**

**Approval for academic plan and strategy for implementing UGC Quality Mandate for higher educational institutions in The Academy.**

**Discussion:**

Secretary briefed that the UGC has instructed the higher educational institutions in India to address various challenges facing the higher education system in India today such as employability of graduates, preparing the state of the art curriculum, providing quality teaching, research and services, adoption of ICT and preparing next generation socially responsible citizens by adopting UGC Quality Mandate. In this regard, The Academy has constituted Task Forces with 5 to 10 faculty

members for each of the Quality Mandate and action plan for implementation of its related academics/ administrative activities has been prepared.

The Council discussed the UGC Quality Mandate and approved the same.

### **Resolution:**

**The Academic Council resolved to approve academic plan and strategy for implementing UGC Quality Mandate for higher educational institutions in The Academy.**

### **Agenda No.AC/XXXVI-20/20**

### **Subject:**

**Approval of following policies of The Academy.**

### **Discussion:**

Secretary informed that the following policies are either revised or newly formulated for proper academic and administrative functioning of the Academy. Some of the policies are mandatory aspects for assessment and accreditation of NAAC.

- 1) Staff Welfare policy - **Annexure - XVI**
- 2) Resource Mobilization policy - **Annexure - XVII**
- 3) E-governance policy - **Annexure - XVIII**
- 4) Incubator policy - **Annexure - XIX**
- 5) Strategy plan - **Annexure - XX**

**Agenda No.AC/XXXVI-21/20**

**Subject:**

**Introduction of Kannada classes in the UG curriculum.**

**Discussion:**

Secretary briefed that The Academy has received a letter from the President of Kannada Abhivruddhi Praadhikaara, Bangalore on introduction of Kannada language classes to students of all undergraduate programs. The Pradhikaara has directed that Kannada language should be introduced as a subject in at least four semesters of the UG training program.

The Faculty of Allied Health and Basic Sciences in its meeting held on 13<sup>th</sup> July 2020 has made the following recommendation on this issue :

- i) The proposal of the Faculty to teach Kannada in the first two semesters of all UG programs at the Academy, starting from 2020-21.
- ii) All the departments of the FAH&BS will have to find common timings to teach Kannada.
- iii) Kannada has to be taught for at least 3 hours in a week.
- iv) The subject need not carry any credit / marks. It is sufficient to conduct departmental examinations at the end of the semester.

The syllabus to be adopted by The Academy has been shared with the Council Members.

The Council discussed the subject and approved the same.

**Resolution:**

**The Academic Council resolved to approve for introduction of Kannada classes in the UG curriculum.**

**Agenda No.AC/XXXVI-22/20**

**Subject:**

**Introduction of English, Constitution of India, Environmental Science and Computer applications in the UG Curriculum.**

### Discussion:

Secretary informed that the same principle, as described above, holds well with the teaching of English, Environmental Sciences, Constitution of India, and Computer applications. A perusal of the general standard of the students seeking admission to The Academy suggests that they require additional help in understanding and speaking English.

The Hon'ble Supreme Court of India has mandated teaching of Environmental Sciences and Constitution of India to UG students. It would be in the interest of our students that they be given some input on fundamentals of computer processing and computer applications. Professional input in this area as against self-learning makes a big difference.

The proposal is that all departments will make provision for teaching these subjects in their undergraduate programs preferably in one of the beginning semesters and further that these subjects will be taught in one semester. Each of these courses can be of 2 or 3 credits with no or only departmental examination. The details will be worked out between the departments. It is further proposed here that the name of the computer related courses that the departments are already offering (for eg. Clinical Nutrition and Dietetics) under different nomenclatures be renamed as 'Computer applications'.

The Faculty of Allied Health and Basic Sciences in its meeting held on 13<sup>th</sup> July 2020 has made the following recommendations :

1. The faculty proposed teaching of English, Environmental Sciences, Constitution of India and Computer Applications for students of all UG programs at The Academy beginning from 2020-21.
2. All the departments of the FAH&BS should preferably find common timings to teach these subjects in the first, second or third semester of the program.
3. Each of these subjects can be taught for 2 hours in a week.

4. The subject need not carry any credit / marks. Departmental examinations are to be conducted at the end of the semester.

The syllabus to be adopted by The Academy has been shared with the Council Members.

The Council discussed the subject and approved the same.

### **Agenda No.AC/XXXVI-23/20**

### **Subject:**

**Approval of new uniform design for UG students of Allied Health and Basic Science.**

### **Discussion:**

Secretary said that a suggestion was mooted some time back to have a new uniform for the students of the Faculty of Allied Health and Basic Sciences that is slightly different from that of UG medical students. This was on the assumption that different uniforms will help in the easy identification of students! Accordingly, all the heads of the departments under the Faculty of Allied Health and Basic Sciences decided on a particular design of apron and Id card tags. The selected design is given in.

The subject was discussed in the Faculty of Allied Health and Basic Sciences meeting held on 13<sup>th</sup> July 2020 and approved the same.

### **Resolution:**

**The Academic Council resolved to approve new uniform design for UG students of Allied Health and Basic Science.**

**Agenda No.AC/XXXVI-24/20**

**Subject:**

**Proposal to revisit check point criteria for UG programmes being offered under Faculty of Allied Health and Basic Sciences.**

**Discussion:**

Secretary said that one of the features of the existing carryover policy in the CBCS regulations is as follows:

In the first year, candidates who fail in the first semester may proceed to the second semester and take the exams. But they have to complete the first year courses (both the semesters) to be eligible to enter the third semester. Similarly, students are allowed to carry subjects of 3rd and 4th semesters to 5th semester. But, before entering the 6th semester, they have to complete all the subjects in which they have failed.

It is our experience that it leads to creation of odd batch of students which, in turn, poses serious practical problems in terms of both conduct of classes and examinations. There is also possibility that they would be neglected lot and because of that they may lose focus in their study. Therefore, it is proposed here to abolish the odd batch by removing the check point at 2nd and 5<sup>th</sup> semester.

The Faculty of Allied Health and Basic Sciences in its meeting held on 13<sup>th</sup> July 2020 has made the following recommendations regarding this subject:

- i) Abolish the check point at second or fifth semester (as the case may be).
- ii) Heads of the department should amend rules and regulations of the UG programs to abolish 'check points' at 2nd and 5<sup>th</sup> semesters.
- iii) Amend the rules and regulations to include a subsection that allows odd-semester failed students to appear for that exam in the odd semester and even-semester failed students to appear in the next even semester only.

- iv) UG programs under the faculty like the integrated program of B.Sc-M.Sc (Clinical Nutrition) and B.ASLP (Speech Pathology & Audiology) which is governed by a statutory body like the Rehabilitation Council of India may make some modifications from these proposals, if necessary.
- v) The changes would be applicable to students to be admitted in the academic year 2020-21.

The Council discussed the proposal and approved the same.

**Resolution :**

**The Academic Council resolved to approve the proposal to revisit check point criteria for UG programmes being offered under Faculty of Allied Health and Basic Sciences and applicable to students to be admitted in the academic year 2020-21.**

**Agenda No.AC/XXXVI-25/20**

**Subject:**

**Separate Institutional Ethics Committee (IEC) for Faculty of Allied Health and Basic Sciences.**

**Discussion:**

Secretary said that the Faculty of AH and BS has several diverse disciplines like Clinical Nutrition, Physiotherapy, Integrative Medicine, Cell Biology, Optometry, Medical Laboratory Technology, Radiation Therapy Technology, and Speech Pathology & Audiology, among others one can see that there is very little common between the specialties. The practice hitherto at The Academy is that the lone IEC looks into all the research proposals across the broad spectrum of medical and non-medical specialties.

Furthermore, the Faculty of Allied Health and Basic Sciences is not well represented in the IEC (lone representative). Statistics of the research proposals submitted by different departments to IEC and CEC since 2016 plus the large

number of Ph.D proposals from these departments, as shown below, justifies a separate ethics committee for the Faculty of Allied Health Basic Sciences.

Dept. of Clinical Nutrition	Since 2019	7
Dept. Integrative Medicine	Since 2016	17
Dept. of Cell Biology	Since 2015	33
Dept. of Public Health	Since 2018	11

The Faculty of Allied Health and Basic Sciences which met for the second time on 13 July 2020 made the following recommendations:

- i) The proposal to establish a separate IEC for Faculty of Allied Health and Basic Sciences.
- ii) The Academy must evolve a mechanism to obtain expert's approval for research proposal before sending it to the IEC for ethics approval.

The Council discussed the proposal and approved the same.

### **Agenda No.AC/XXXVI-26/20**

### **Subject:**

**Proposal to increase the intake of students for the B.Sc. - M.Sc. integrated program of Department of Clinical Nutrition and Dietetics.**

### **Discussion:**

Secretary briefed that the department of Clinical Nutrition and Dietetics proposed to increase the intake from the present 10 to 20 for its integrated B.Sc - M.Sc program. This subject was discussed in the 2<sup>nd</sup> meeting of Faculty of Allied Health and Basic Sciences held on 13<sup>th</sup> July 2020 and recommended that :

- i) 20 students may be admitted for the program from the coming academic year subject to all other formalities and approvals, and
- ii) suggested to the Head of the Department to give a comprehensive proposal for B.Sc, M.Sc. and Integrated B.Sc.-M.Sc. programs clearly indicating the exit and entry points.

Further, Secretary invited the HoD of Clinical Nutrition and Dietetics to brief on the justification for increase in intake. In response, HoD said that the department had sufficient infrastructure, faculty and also demand for the course.

Chairman suggested to invite one faculty from other institutions to personally visit the department and obtain recommendation before enhancement.

**Resolution:**

**The Academic Council resolved to approve the proposal for increase of intake of students from 10 to 20 for the B.Sc. - M.Sc. integrated program of Department of Clinical Nutrition and Dietetics and suggested to invite one faculty from other institutions to personally visit the department and obtain recommendation before enhancement.**

**Subject:**

**Job oriented short-term certificate course in Yoga.**

**Discussion:**

Secretary said that the department of Integrative Medicine proposed to introduce a value added program by the title Yoga for Stress management / Yoga for wellness from this academic year. The Academy is encouraging to introduce value added course for the students to enhance their skill and competencies in their personal and professional life. Yoga being integral to lifestyle management, its felt appropriate to provide the opportunity for the students to pursue course in Yoga. There is tremendous scope for such certificate holders to work in NGOs, wellness centres, SPA, resorts, multinational companies etc.

A module is prepared, which was discussed in the Faculty of Allied Health and Basic Sciences meeting held on 13<sup>th</sup> July 2020 and permitted to offer this value added programme after necessary approvals.

Secretary invited Dr.N.J.Patil, I/c HoD, Dept. of Integrative Medicine to brief on the course. In response, I/c HoD said that Value added program of 30 hours duration

## **Discussion:**

Secretary briefed the proposal of the department was to have Question papers with uniform weightage and questions pattern that facilitates computer generation of Question papers. The Faculty accepted the proposal, in principle, but asked the HOD to have discussions with the Controller of Examinations and then prepare a comprehensive proposal.

Accordingly, the details are as under:

**Subject:**

**Introduction of chapter and /or an elective on “Work Placed based Hazard”, “Basic Laws for Allied Health care professionals” and basic aspects of Disaster Management in curriculum of UG and PG as curriculum enrichment.**

**Discussion:**

Secretary said that the above agenda and the CBCS regulation adopted and implemented in the Academy with a view of enriching the program curriculum content, allows the introduction of a chapter and or an elective on “Work Placed based Hazard”, to minimize the risk of harm should be introduced.

Similarly, a chapter and or an elective on Ethics and Law in relation to Health care/Allied health care professionals/disciplines in specific can be introduced. Also a chapter and or an elective on Disaster Management aspects can be offered to the students to become more focused and also it enrich the knowledge, skill, and behavior.

Faculty of Allied Health Basic Sciences in its meeting held on 4<sup>th</sup> July 2020 appreciated the unique and newer aspects of the different domain in the curriculum as chapter for students for awareness and to behave as responsible professionals and recommended incorporating the chapter in to syllabus / offering as value addition course /elective during UG / PG program.

It was decided to include “Work Placed based Hazard” as chapters in 3<sup>rd</sup> Semester, “Basic Laws for Allied Health care professionals” as chapters in 5<sup>th</sup>

### **Subject:**

**Approval for Guidelines for examination and academic calendar in view of COVID-19 pandemic and subsequent lockdown for Allied Health and Basic Science students for the session 2020-21.**

### **Discussion:**

Secretary said that in view of the ongoing COVID-19 pandemic and its related effect due to lockdown and disruption of regular educational activities in the campus of The Academy, The Academic calendar for the year 2020-21 could not be followed. This has been a national phenomenon for which UGC and other regulatory bodies have issued guidelines on examinations and academic calendar for the universities in view of COVID-19 pandemic and subsequent lockdowns for fresh students, intermediate students and exiting students. The Academy has prepared the guidelines for examinations and academic calendar for the year 2020-21.

The Council discussed the guidelines for examinations and academic calendar and approved the same.

**Resolution:**

**The Academic Council resolved to approve Guidelines for examinations and academic calendar in view of COVID-19 pandemic and subsequent lockdown for Allied Health and Basic Science students for the session 2020-21.**

**Agenda No.AC/XXXVI-33/20**

**Subject:**

**Offering Academic Flexibility to the needy students in second year of B.Sc. Programs.**

**Discussion:**

Secretary informed that the Department of AHS is offering nine graduate programs in Medical Laboratory Technology, Imaging Technology, Anesthesia Technology, OT Technology, Radiotherapy Technology, Ophthalmic Technology and Optometry, Renal Dialysis Technology, Cardiac Care Technology, Cardiac Perfusion Technology, and Respiratory Care Technology. The eligibility criteria for all the programs are the same (PUC/10+2).

Generally, students apply for the programs as per their choice in the beginning or at the time of admission. At present, they are not permitted to opt for any change in the 2nd year of program on successful completion of first year. However, the department of AHS feels it is necessary to be flexible and allow students to change the program from the second year. For example, students of Medical Laboratory Technology will be allowed to join any other program from the second year onwards. This will be of great advantage to students. Therefore, the Department of AHS proposes to allow students to change their program from second year onwards provided there is vacancy in the other program.

The Faculty of Allied Health and Basic Sciences in its meeting held on 13<sup>th</sup> July 2020 discussed the proposal and recommended for implementation provided on the condition that students who opt for a change shall not demand a change in their first year (2 semesters) marks cards/certificates.

Chairman said that The Academy has decided to provide academic flexibility to the needy students in second year of B.Sc. but for not more than 10% of total seats in that program and only if there are vacant seats at the end of admission session.

**Resolution:**

**The Academic Council resolved to approve for offering academic flexibility to the needy students in second year of B.Sc. Programs provided on the condition that students who opt for a change shall not demand a change in their first year (2 semesters) marks cards/certificates. The seats offered for this purpose will not be more than 10% of total seats in that program and only if there are vacant seats at the end of admission session.**

Dear Dr Vijayashri

Greetings from AIIMS Gorakhpur

We at AIIMS Gorakhpur are in process of finalization of our academic calendar and activities for which we require your valuable suggestion in planning the Competency Based Curriculum/Syllabus for AIIMS Gorakhpur, that will help students to shape themselves for their bright future to become competent medical graduate. Thus in reference to above, you are invited to be a member of Board of Studies in subject of Microbiology. A line of confirmation would be appreciable.

Date and time of the meeting shall be conveyed to you. Due to COVID- 19, it shall be conducted online. The link, login ID/ password shall be informed accordingly.

Please confirm the same by sending your consent by Email.

Dr Surekha Kishore

Executive Director

AIIMS, Gorakhpur
